v1.22 Release Notes

## 1. About this Document

### 1.1. Purpose

This document provides a brief overview of completed bug fixes between V1.21 and V1.22 of GoTechnology hub2.

### 1.2. About Version 1.22

V1.22 is a maintenance release only, with no new features. Development effort has instead focused on our upcoming mobile app, details of which will be announced soon.

## 2. Fixed Issues

The following issues have been fixed in version 1.22 of hub2

Case	Title [sic]	Details
62889	Editable Headers Not Editable in PDF if the Same Header Label is Used	When a Digital Document was created with two editable headers with the same name, the values were not editable when generated to PDF.
62891	Digital Document Creation – Tasks appear to be Required	On the Digital Document creation screen, the checkbox which indicates that a task is required was ticked even if the task was not required.
61326	Notification icon remains highlighted after notifications are cleared	The on-screen notification icon in the page header remained highlighted, even when all notifications were cleared. Clearing notifications now correctly clears the status icon.
62847	Some values incorrectly formatted as dates in search results	When values which have a similar content to common date formats were displayed within search results, they were being converted to a date format for display on-screen.
63042	Reports not filtering on certain Boolean fields	When reports were generated using filters such as 'Is Validated' on Tags, certain filters were not applied
62994	Custom fields not appearing in Punch List Item Detailed Report with certain filters	When certain custom fields were included in the Punch List Item Detailed Report, the values were not being returned if the report was filtered by Sub System, System or Phase.

## 3. Known Issues

A full list of "Known Issues" can be found at <https://gotechology.github.io/>

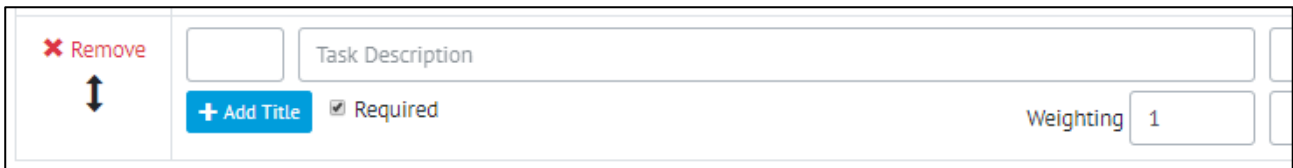

## 4. Features

The following functionality has been added in v1.22:

- New Digital Document Default Weighting

### 4.1. New Digital Document Default Weighting

For Digital Document's tasks, the default weighting is now set to 1 (previously 0). This ensures progress for all Digital Documents is recorded at Task Level by default. Weighting can be manually adjusted as required.

The screenshot shows a task form with the following elements:

- A red 'X Remove' button on the left.
- A vertical double-headed arrow icon below the 'Remove' button.
- A blue '+ Add Title' button.
- A checkbox labeled 'Required' which is checked.
- A text input field labeled 'Task Description'.
- A 'Weighting' field with a value of '1'.
