v1.38.2 Release Notes

1. About this Document

1.1. Purpose

This document provides a brief overview of the changes made between V1.38 and V1.38.2 of GoTechnology hub2, along with where further details of each change can be found within the updated functional specification, in addition to a listing of completed bug fixes and known issues.

2. Fixed Issues

The following issues have been fixed in version 1.38.2 of hub2

Case	Title [sic]	Details
Case No	Title	Details
78490 78466 78565	Access Denied messages	Some users were receiving "Access Denied" messages when running Reports. This has been corrected so that users are able to run reports successfully.
78489	"Error occurred during download"	Sometimes a message saying "an error has occurred during download" was appearing when generating a report, even though the report was being generated successfully. This has been corrected.
78585 78628 78629	Handover Summary Reports error	When Handover Summary Reports were run, they were producing an error message. This has been corrected and these reports now generate successfully.
N/A	Reports appearing on Scheduled Reports page	Some users reported that having their reports appear on the Scheduled Reports page was confusing and it was hard to identify which report was their own one. This will no longer happen, and we are investigating alternatives for a future release.

3. Known Issues
