

wood.

The page features two large, overlapping purple circles. The circle on the left is partially cut off by the edge of the page. The circle on the right is a thick ring with a white center, also partially cut off by the right edge of the page.

GoTechnology[®] hub2

v1.39.1 Release Notes

1. About this Document

1.1. Purpose

This document provides a brief overview of the changes made between V1.39 and V1.39.1 of GoTechnology hub2, along with where further details of each change can be found within the updated functional specification, in addition to a listing of completed bug fixes and known issues.

2. Fixed Issues

The following issues have been fixed in version 1.39.1 of hub2

Case		Title [sic]	Details
Case No	Title	Details	
79894	Very Slow Tag Save	<p>There was an issue where saving a Tag had become very slow if there was a very large number of other Tags already in the system. The Tags were saved but the length of time it took gave the impression that nothing was happening.</p> <p>This has been improved so that the Tag Save process is now quicker when there is a very large Tag data set.</p>	
80030	Punch List Item Import Issue	<p>There was an issue where valid Punch List Items could not be imported and an incorrect validation message was displayed. This has been corrected and the PLIs can now be imported successfully.</p>	

3. Known Issues

A full list of "Known Issues" can be found at <https://qedi-gotechnology.github.io/>

4. Features

v1.39.1 is a patch release and includes no new features.
