# GoTechnology® hub2

v1.42.1 Release Notes

1. About this Document

1.1. Purpose

This document provides a brief overview of the changes made between V1.42.0 and V1.42.1 of GoTechnology hub2, along with where further details of each change can be found within the updated functional specification, in addition to a listing of completed bug fixes and known issues.

2. Fixed Issues

The following issues have been fixed in version 1.42.1 of hub2

Case	Title [sic]	Details
89905	Required fields in Punch List Item Import	When Punch List Item Auto-Numbering is enabled, the Number column is not required in an import file because it will be generated by hub2. However, an issue meant that the import returned a message asking for the Number field and the import was stopped. This issue has been resolved, and the import no longer asks for the Number field when Auto-numbering is enabled.

3. Known Issues

A full list of "Known Issues" can be found at https://qedi-gotechnology.github.io/

4. Features

v1.42.1 is a patch release so includes no new features.
