

V1.48.1 Release Notes

GoTechnology hub2

1. About this Document

Purpose

This document provides a brief overview of the changes made between V1.48 and V1.48.1 of GoTechnology hub2. This includes some minor new functionality and completed bug fixes.

2. Fixed Issues

The following issues have been fixed in version 1.48.1 of hub2.

Case	Title [sic]	Details
102728	Session timeout	A client reported concerns over session timeout while completing large forms. A warning message has been added just before the session is about to expire, to prompt users to save any changes to the page before the session expires and they are lost.
102898	Process Builder error	An error occurred when saving a Process if a value had been typed into a field and the value was not valid for that field. This has been corrected so no error occurs, and a validation message is now displayed to indicate which field contains invalid text so that it may be corrected.
120715 120798 103883	Confusing warning message	A warning message was sometimes being displayed when uploading Tag ITR digital documents explaining that PLIs would not be updated and must be completed separately. This message was misleading because it was being shown when the Tag ITR did not require any PLIs to be created. This has been changed so that the message will now only be shown when appropriate.
103538	System Name bookmark not populating	The System Name bookmark was not being filled with a value when generating a MOC digital document, either on screen or as a PDF. This has been fixed, and the System Name is now displayed.
103697	Generating with password protected attachments	The generation of multiple Tag ITRs with their associated Attachments would fail if one of the Attachments was a password protected PDF. This has been fixed so that the final file will generate successfully even if it includes password protected PDF.
120170	Custom Field bookmark not populating	Custom Field bookmarks were not being correctly populated on Tag ITR digital documents, either on screen or as a PDF. This has been fixed, and these values are now displayed correctly.
120512	Unable to save ITR digital documents	A client reported that they were unable to save some ITR digital documents. This was due to an issue with saving very large templates which contain a lot of component parts and fields. This has now been improved so that it is now possible to save much larger and more complex template documents.
120715 120798	Confusing warning message	A warning message was sometimes being displayed when uploading Tag ITR digital documents warning that sign offs would not be saved and that PLIs must be created first. This message was misleading because it was being shown when the Tag ITR did not require any PLIs to be created. This has been changed so that the message will now only be shown when appropriate.

3. Features

The following functionality has been added in v1.48.1:

- PLI Category on the Completions Grid
- Date and Time on History
- Punch List Report Options
- Skyline Report Table Details

4. PLI Categories on Completions Grid

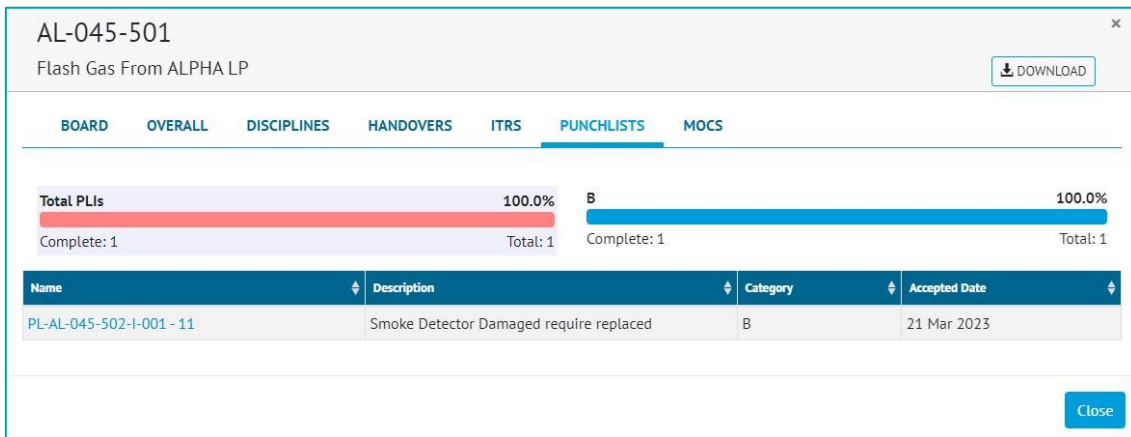

Figure 1. The pop-up on the Completions Grid, showing the Category column

The Punch Lists section on the pop-up on the Completions Grid, now includes a column for the Punch List Item Category.

Figure 2. The Completions Grid PDF download showing the new columns

In the PDF download available from the Completions Grid, the list of Punch List Items has been enhanced. It now includes new columns for the Punch List Item Category and the Accepted Date.

5. Date and Time in History

Figure 3. The History page for a Discipline

On the History pages, the 'Show Dates' checkbox is now ticked by default, meaning that the exact date and time at which each change was made is shown initially. Untick the checkbox to show it in "2 days ago" format.

6. Punch List Item Reporting Options

Module	Module Description
PWL	PWL Description
PWL Due Date	Job Card
Assigned To	Document Reference

Figure 4. Selecting the Job Card field when creating a Punch List Item Report

Job Card is now available as a field in Punch List Item Detailed Reports.

To add this field to an existing Punch List Item Detailed Report:

- Go to Reports -> Report List -> Edit Reports
- Click Edit on the PLI Detailed Report
- In the 'Select Columns' section, click on 'Job Card'.
- Save the report.

7. Skyline Report Table Details

	MCC-AL-069-502 2 of 3 Complete 3 Jan 2023	MCC-AL-069-503 2 of 11 Complete 10 Jan 2023	MCC-AL-069-501 1 of 8 Complete 24 Jan 2023	MCC-AL-120-510 2 of 2 Complete 7 Feb 2023	MCC-AL-120-511 1 of 1 Complete 21 Feb 2023
ITR Count	2 of 3	2 of 11	1 of 8	2 of 2	1 of 1
Ready to Handover	0 of 1	0 of 1	0 of 1	1 of 1	0 of 0
Handover Complete	0 of 1	0 of 1	0 of 1	0 of 1	0 of 0
ITRs Cumulative	2 of 3	4 of 14	5 of 22	7 of 24	8 of 25
ITRs Comp. Cumulative	0 of 1	0 of 2	0 of 3	1 of 4	1 of 5
Handovers Comp.	0 of 1	0 of 2	0 of 3	0 of 4	0 of 5
21 Mar 2023					

Figure 5. Extract from a Skyline Report showing the new labels

The labels in the table at the bottom of the Skyline Report PDF have been changed to make their meaning clearer:

- 'All ITRs Complete' has been replaced with 'Ready to Handover'.
- 'Handover' has been replaced with 'Handover Complete'.
