1. About this Document

Purpose

This document provides a brief overview of the changes made between V1.50 and V1.50.1 of GoTechnology hub2, along with where further details of each change can be found within the updated functional specification, in addition to a listing of completed bug fixes and known issues.

2. Fixed Issues

The following issues have been fixed in version 1.50.1 of hub2:

Case	Title [sic]	Details
129534	Process Builder fields displaying incorrect values	Users reported that pop-ups in the Process Builder were displaying the wrong type of field values. This has been fixed so that the correct values are once again displayed in the fields/pop-ups.
129675 129677	Process Builder Detailed Report not generating	A generic error message was received when attempting to generate the Process Builder Detailed Report. This has been corrected and the report now generates and downloads successfully.

3. Features

v1.50.1 is a patch release so includes no new features.
